Portable Tri-Tone Equalizer Control and Headphone Amplifier

Art. No.: UA0273

UA0273 supports Tri-Band equalization and built-in headphone amplifier. Tone Control allows users to master their song back to the „Original“ sound even if they are playing lower quality MP3 files on middle-end earphones; additionally, users can enhance different parts of the frequency range; high tones (treble), mid-range (middle), low frequency (bass). With UA0273, you not only can improve the sound of all your music but you can also adjust different sound bands to suit your personal musical taste for different kinds of music such as, classic, jazz or pop to name a few.
